

TOXIC SPEECH

- ★ disinformation and manipulated narratives
 - ★ pejorative generalisations
- ★ individual experiences presented as universally valid
- ★ ignoring differences inside the society / society presented as homogeneous
- ★ Homogeneity is the ideal: everyone should live and think the same.
 - ★ You don't live like me? Then you are wrong and I attack you!
 - ★ You don't agree? Don't expect dialogue.
You'll get insulted, offended, silenced.
