

Learning Style	Your Score	What do your answers say about you?
Visual- Language		<p>You learn well from <u>SEEING</u> words in books, on the chalkboard, charts or workbooks. You may write words down that are said out loud to you in order to learn by seeing them on paper. You remember and use information better if you read it than if you hear it.</p>
Auditory- Language		<p>You learn from <u>HEARING</u> words spoken. You might whisper or move your lips as you read, especially if you're trying to understand new material. You understand and remember words or facts better when you hear them instead of reading them yourself.</p>
Visual- Numerical		<p>You need to <u>SEE</u> numbers on the board, in a book, or on paper in order to work with them. You are more likely to remember and understand math facts if you see them. You do not seem to need as much verbal explanation.</p>
Auditory- Numerical		<p>You learn from <u>HEARING</u> numbers and verbal explanations. You may easily remember phone numbers and locker combinations and be successful with verbal numbers, games and puzzles. You can probably work out math problems in your head and don't need to see them written down. You may say the numbers out loud or move your lips as you're reading the problem.</p>
Auditory-Visual- Kinesthetic		<p>You learn best by <u>EXPERIENCE</u> and self-involvement. Being able to see, hear, and/or touch the materials will make a big difference in your learning. You may not be able to understand, or keep your mind on your work unless you are totally involved. You need to handle, touch and work with what is being learned.</p>

Social-Individual		<p>You get more work done <u>ALONE</u>. You think best, and remembers more when you have learned by yourself. You care more for your own opinions than for the ideas of others. You don't have trouble talking with your friends too much in class.</p>
Social- Group		<p>You get more work done if you <u>WORK TOGETHER</u> than if you work alone. You value others' ideas and preferences. Working with a group helps you learn better. Socializing is important to you.</p>
Expressiveness- Oral		<p>You prefer to <u>TELL</u> what you know. You talk fluently, comfortably, and clearly. Your teachers may find that you do better if you can tell them your answers instead of writing them. You are probably less shy than others about giving reports or talking to the teacher or classmates. Organizing and writing down all your thoughts may be too slow and boring for you.</p>
Expressiveness- Written		<p>You prefer to <u>WRITE</u> essays and answers on tests to show what you know. You aren't comfortable saying your answers out loud. Your thoughts are better organized when you write them than when you say them.</p>
